

# **The United States Council of Mayors — 85th Annual Meeting**

## **Opposition to Military Spending Resolution**

**WHEREAS**, President Trump has proposed to move \$54 billion from human and environmental spending at home and abroad to military spending, bringing military spending to well over 60% of federal discretionary spending; and

**WHEREAS**, polling has found the U.S. public to favor a \$41 billion reduction in military spending, a \$94 billion gap away from President Trump's proposal; and

**WHEREAS**, part of helping alleviate the refugee crisis should be ending, not escalating, wars that create refugees; and

**WHEREAS**, President Trump himself admits that the enormous military spending of the past 16 years has been disastrous and made us less safe, not safer; and

**WHEREAS**, fractions of the proposed military budget could provide free, top-quality education from pre-school through college, end hunger and starvation on earth, convert the U.S. to clean energy, provide clean drinking water everywhere it's needed on the planet, build fast trains between all major U.S. cities, and double non-military U.S. foreign aid rather than cutting it; and

**WHEREAS**, as even 121 retired U.S. generals have written a letter opposing cutting foreign aid; and

**WHEREAS**, a December 2014 Gallup poll of 65 nations found that the United States was far and away the country considered the largest threat to peace in the world; and

**WHEREAS**, a United States responsible for providing clean drinking water, schools, medicine, and solar panels to others would be more secure and face far less hostility around the world; and

**WHEREAS**, our environmental and human needs are desperate and urgent; and

**WHEREAS**, the military is itself the greatest consumer of petroleum we have; and

**WHEREAS**, economists at the University of Massachusetts at Amherst have documented that military spending is an economic drain rather than a jobs program,

**NOW, THEREFORE, BE IT RESOLVED**, that the United States Conference of Mayors urges the United States Congress to move our tax dollars in exactly the opposite direction proposed by the President, from militarism to human and environmental needs.
